A UNION FAVORED

TELEPHONE MEN PASS RESOLUTION TO PUT PLAN THROUGH.

TO MEET AGAIN SOON

Will Adopt Constitution and Elect Officers—Means Nearly 100 Miles of New Lines in the County.

With more than half the mutual telephone exchanges represented at yesterday's meeting in the court house, W. O. Garrett's resolution to the effect that a county organization for the purpose of uniting and improving the telephone lines was unanimously adopted. The resolution reads:

"Whereas, it is the sense of this convention that it will be to the best interests of the various mutual telephone exchanges of Nodaway county, Missouri, and to the members thereof, that a general county organization be effected to take charge of and control all commercial wires connecting the various local mutual exchanges of said county, and for the purpose of further advancing the general interest and utility of said mutual telephone exchanges; therefore, be it

"Resolved, That we, the representatives of the various mutual telephone exchanges of Nodaway county, in convention assembled, believe it to be the mutual benefit of all said local telephone exchanges, that a county organization or association be effected, to be composed of the presidents of each local exchange, said county organization to have charge of and control all commercial wires connecting said local exchanges in the county, and to do and perform all things necessary to promote the general welfare of said mutual exchanges, leaving the entire control and management of the local exchange to the local board of directors. Be it further

"Resolved, That a committee, consisting of the president of each exchange, be authorized by this convention to effect such an organization and prepare a constitution and by-laws, and that the same be referred to each local exchange in said county for their approval and adoption.

"Respectfully submitted."

The presidents of all the county exchanges will be notified at once of the result of the meeting yesterday, and as soon as possible they will be called together in a meeting to draw up a constitution and by-laws and perfect an organization.

This will mean that nearly 100 miles of new commercial wires will be erected in Nodaway county to relieve the present crowded condition of the mutual telephone lines. The entire service will be bettered and more direct lines between Maryville and other towns will give better service to the far points of the county.

Yesterday's meeting was the third in the attempt to get enough men together to transact any business. The first meeting was held early in May and the second July 1. At these meetings a good representation was had from certain districts, but not until yesterday were districts from several parts of the county represented.

From the favorable attitude of the men at each meeting and the personal approval expressed by the mutual officers all over the county to W. O. Garrett and Alfred Shackleford in a trip over the county, there will be no opposition to a union organized along the lines of the resolution adopted yesterday.

Those present yesterday were: Maryville, William Mozingo, H. W. Hull, William Job, W. O. Garrett, Alfred Shackleford, W. D. Scott and J. A. Croy; Pickering, William Burk; Clearmont, C. E. Kelly; Burlington Junction, F. C. Fleming; Arkoe, E. E. Woodward, C. A. Bainum, G. W. Wamsley; Graham, T. I. McNeal, F. E. McNeal, G. W. Galbreth, George Herron, Dan McGrew; Clyde, Gabe Percell; Bedison, Oliver Young; Ravenwood, James Colvin; Wilcox, William Ritchie; Barnard, Zell Thompson.

Out of Jail Into Jail.

James Stuart was released from the city jail yesterday morning, having completed his term. In the afternoon he got drunk, was arrested and thrown into jail again. This morning he was fined \$10 and costs, which he was not able to pay. He is working out the fine on the streets.

William Drum was arraigned in police court this morning on a charge of drunkenness, pleaded guilty and was fined \$5 and costs.

Henry and Charles Peterson of Valentine Valley, Texas, are in Maryville this week on business.

FUNERAL FOR SCHMIDT CHILD.

Services Held at Graham Church Yesterday Afternoon.

The funeral services of John Jackson Schmidt, the son of Mr. and Mrs. Pleasant Schmidt, who live near Graham, were held yesterday afternoon at the Methodist church of Graham, conducted by the pastor, the Rev. H. K. Morga. The pall bearers were Chloe Riggie, Bessie Danner, Neva Howard and Myrtle Shambarger.

LIPPMAN REMODELS BUILDING.

Old Oak Saloon is Being Made Into Room—No Tenant Yet.

Adolph Lippman is having the old Oak saloon remodeled so as to be suitable for store purposes. It is being refinished and redecorated, concrete floors are being put in the basement and new plumbing is being installed. The area under the sidewalk is being excavated for storage purposes.

Mr. Lippman said this afternoon that as yet he has no tenant for the building.

COCKAYNE TRIAL IS TOMORROW.

Nodaway Farmer Charged With Reckless Driving in St. Joseph—J. C. Dugdale Will Sue.

E. A. Cockayne, a farmer living near Maryville, will be tried in St. Joseph tomorrow, charged by the city with reckless driving.

The occasion of the trial is due to an accident July 5, in which Cockayne ran down and injured J. C. Dugdale of St. Joseph. Mr. Cockayne was driving his car past a street car, when Dugdale ran in front of the street car and was struck by the automobile.

Mr. Dugdale has retained an attorney and will sue Mr. Cockayne for personal damages.

HAS TO BE ORDERED.

Order Issued to Stop Designing Merchants From Dumping Packages C. O. D.

The postmaster general this week issued an order to prevent designing merchants from forcing their goods on persons through the aid of the parcel post.

Many complaints have been received at the postoffice department since the recent order permitting the sending of parcels C. O. D. through the mails that persons have had parcels dumped on them which they did not contract to purchase.

Under the order issued persons do not have to accept collect on delivery parcel post packages unless those packages were ordered by them. Postmasters have been instructed not to urge their acceptance in any case.

CHALLENGERS ARE DEFEATED.

Nodaway County Students Offer to Play All Others and Lose Ball Game 4-5.

During the assembly hour yesterday morning, the Nodaway county base ball players challenged the players from all other counties to a game of base ball. The gauntlet was accepted, and in the afternoon Nodaway went down to defeat by a score of 5-4.

For the first few innings it looked as if the combined counties would have things all their own way, as they scored twice in the first inning and once in the second, and made more count in the third. The Nodaway team found its stride in the third, however, and ran in four scores, tying the game.

Neither team scored in the fourth inning, and the combined counties scored their winning run in the fifth. The batteries were: Nodaway, Richards and Ham; combined counties, Wogan and Dyer.

Library Receives Books.

The Carnegie Library received a shipment of books and magazines from the bindery this morning. There were 192 books and 44 volumes of magazines. They will be put on the shelves for distribution at once.

Many of the books, comparatively recent works, were on the penny-a-day shelf before being sent to the bindery, but now they will be put on the free shelves.

George Shelton Gets Big Wheat Yield.

George Shelton, living on one of E. H. Evans' farms, near Parnell, has just threshed the wheat from one 75-acre field. It yielded thirty bushels and four pounds to the acre.

Spent Day in Maryville.

Mr. and Mrs. John O'Day and daughters, Marie and Anna, of Parnell motored to Maryville Wednesday and spent the day.

MT. TABOR WINS IS GOOD REPORT

HAS BEST ATTENDANCE, LARGEST PLEDGE AT S. S. CONVENTION.

TO SKIDMORE IN 1915

Delegates at Burlington Junction Numbered 235—Meeting Closed Yesterday—Officers Elected.

Mt. Tabor, a small country Sunday school near Elmo, was the banner Sunday school represented at the county Sunday school convention, which closed at Burlington Junction yesterday.

This little school of about forty members pledged the largest sum toward the county and state work for next year. Its pledge was \$30. Mt. Tabor also won the banner given to the school with the largest per cent of its enrollment present. The enrollment was based on last year's report. Mt. Tabor then had thirty-five pupils. Thirty-six registered at Burlington Junction, making its percentage 102.

The Wilcox South Methodist Sunday school came second with 100 per cent. Everyone of its sixty-five pupils attended the convention.

The convention closed its two days' session last night, having been attended throughout with much enthusiasm, and more than twice as many delegates registered as did at Maryville last year. The total number of delegates from outside Burlington Junction was 235, and they represented thirty county Sunday schools. Representatives were present from Sunday schools in Brookfield, Pattonsburg, Tarkio, Kansas City and Liberty.

The addresses of S. L. Williams, state superintendent, and Miss Eva N. Welch of Kansas City, whose special line of work is with the elementary departments, were among the best things on the program. The illustrated lecture given by the Rev. C. R. Green of Harmony on "A Country Sunday School" drew a large crowd Tuesday night and was one of the big numbers of the convention.

The pledges for next year's county and state work amounted to \$225. Next year the convention will go to Skidmore.

The officers elected for the coming year are:

President, H. C. Bower of Maryville. Vice president, E. H. Sims of Ravenwood.

Secretary, Miss Eva Davis of Maryville.

Treasurer, T. A. Corken, Burlington Junction.

Elementary department, Miss Elizabeth Evans, Maryville.

Secondary department, Miss Iva Vance, Burlington Junction.

Adult department, C. R. Harmon, Pickering.

Teachers' training department, G. L. Owen, Skidmore.

Home department, Mrs. John Morehouse, Hopkins.

Missions, Miss Ethel Gillinger of Quitman.

Visiting in Maryville.

Miss Cornelia Hurst of St. Charles, Mo., is visiting in Maryville with her grandparents, Mr. and Mrs. W. L. Johnson.

S. H. KEMP HEARS FROM FREMONT, NEB., Y. M. C. A.

ANNUAL INCOME \$9000

Dormitories Bring \$2,500—Subscriptions Were Liberal—One Man Gave \$5,000—Nearly Free of Debt.

During his trip through the west the last three weeks, S. H. Kemp visited many Y. M. C. A.'s, inspected the buildings and asked for detailed reports of the associations to be sent to him here, that the local committee might get suggestions from them. The first of these reports came today from the association in Fremont, Neb.

Fremont is a city of 10,000 population, and although more money was put into the Y. M. C. A. than is planned to put into the one here, it is a financial success. The total cost, building, lot and furnishings was a little more than \$67,000. Of this \$40,000 was paid from the money raised at first, and the remaining debt will be paid this fall.

The association's annual income is \$9,000. This is from several sources. The dormitories, a feature which the local committee expects to make much of, bring in \$2,500 a year. The income from annual fees is \$4,000. A cafeteria is run in connection with the Fremont Y. M. C. A., and it nets \$1,000 a year. General subscriptions bring in \$1,000 and miscellaneous fees from gymnasium privileges amount to \$500.

When the campaign for a Y. M. C. A. was started in Fremont, subscriptions were given liberally. One business man gave \$5,000. Another subscribed \$4,000, and a third \$2,000. Eight men gave more than \$1,000 each, and thirteen gave more than \$500 each.

From these reports which come in and from Mr. Kemp's personal visits to these various associations, the local committee expects to get many valuable ideas and a pretty exact estimate of just what can be done here toward building and maintaining a Y. M. C. A. The result of their investigations will be made as soon as possible, and the campaign started after Judge Selden P. Spencer's lecture on the subject at Chautauqua.

SMALL GIRL STARTS LONG TRIP.

Edith Reece, 11 Years Old, Returns Alone to Montana Home, 1,500 Miles Away.

Edith Elizabeth Reece, the 11-year-old granddaughter of Mr. and Mrs. Joseph Reece, who has been visiting them here for the last two months and a half, started this morning on the long journey to her home in Livingston, Mont.

Mr. Reece took his granddaughter to St. Joseph, but from there she will make the rest of the 1,500-mile trip alone.

At Bedford Fair.

Mr. and Mrs. Clark Scott left yesterday for Bedford, Ia., to spend several days visiting and attending the fair.

Dan and Andrew Seyster of Parnell were in the city today on a short business trip.

PICKPOCKET GETS \$600.

Charles Hassler of Guilford is Robbed While at Circus in St. Joseph.

Charles Hassler of Guilford has reported to the police that he was robbed of his pocketbook containing \$110 in cash and between \$400 and \$500 in notes payable to himself while attending the circus in St. Joseph yesterday.

The pocketbook was taken by some pickpocket. The cash consisted of three twenty-dollar bills, four ten-dollar bills, and two five-dollar bills.

STAMPS FOR PEACE CENTENARY.

The United States to Commemorate British-American Amity.

As its contribution to the celebration this year to the centenary of peace between Great Britain and the United States, the postoffice department is preparing to issue two special stamps, the designs for which have been approved by Postmaster General Burleson.

The stamps, of 2 and 5-cent denominations, will be ready for issue early in the fall. The words "Peace, 1814-1914," will be on each. The 2-cent stamp will have on it a hemisphere, with a female figure on the left holding an American flag, and on the right a figure bearing a British flag, the two clasping hands across the hemisphere. On the 5-cent stamp will be a winged figure typifying the spirit of peace, and with a dove of peace flying before it.

A WATER SUPPLY UP THE RIVER.

Manager Denny Says There Will Be No Shutdown Unless Absolutely Necessary.

"I will not shut down the water unless I absolutely have to," said L. A. Denny, manager of the water company, this morning. "I think rains will come soon enough to relieve the situation."

If they do not, Mr. Denny says he can get enough water from up the river to help for a time. The Burlington railroad officials have offered to send some men here to ditch the bed of the river if that becomes necessary.

If the worst comes, Mr. Denny said he would order the dam above Hopkins, built in order to float the dredge boat which is digging the drainage ditch, to be opened so that the water will come down the river. He does not want to do that if it can be helped, however.

The only reason for the supply lasting this long, he thinks, is the care which has been taken to keep water from flowing past the dam. As soon as it reaches the level of the dam and begins to flow over, the pumps took the water directly out of the river and ceased to draw from the reservoir.

There is a good supply in the reservoir at present.

Pierce For Governor.

W. C. Pierce, who is perhaps the best known as well as one of the most popular men in the county, was up from the county seat on business last Monday and took time to drop into the Journal office to say "Hello," says the Hopkins Journal.

The Journal once said that Nodaway county has good gubernatorial timber and we will stick to the statement with the "P. S." that you need not look farther than the office of "Cal" Pierce to find it. Whether you could get him to take it or not is a horse of another color, for his trust company is likely making more money than the combined salaries of half the governors of the United States. It would simply be a matter of whether he considered it his duty to become a living sacrifice for the good of the common weal. Thousands of prominent men throughout Missouri would like to see him head the Republican state ticket. He's a fighter and the kind that wins.

Home From Tarkio.

Miss Mary Margaret Richey returned this morning from Tarkio, where she has spent the past three weeks visiting relatives. She was accompanied by her cousin, Miss Marjorie Trout, for a few days' visit.

Administrator Is Appointed.

W. C. Timmerman was appointed as administrator of the estate of his father, Adam C. Timmerman, who died at his home in Parnell, July 1, by the probate court this morning.

To Return Home.

Miss Harriett Sheets of Aurora, Ill., who has been spending several weeks in Maryville, the guest of Miss Ruth Montgomery, will return to her home tomorrow.

Home From St. Joseph.

Miss Mayme Sullivan, mutual exchange operator at Clyde, will return this evening from a visit with friends at St. Joseph.

WOMEN HAVE HALL

FAIR'S MAIN EXHIBIT BUILDING TURNED OVER TO THEM.

LUNCHEES AT ALL HOURS

General Federation of Women's Clubs Will Solicit and Manage All Exhibits Shown There.

Floral hall, the main exhibit building of the Nodaway county fair, has been put in charge of the General Federation of Women's Clubs.

The club women of the city wished to have the concession for the serving of lunches at the fair as a means of making money to put into the room fund. Yesterday the officers of the fair association offered to give the women this concession free if they would take complete charge of floral hall and its exhibits. The women met last night and decided to accept the offer, and today began their work by inspecting the hall and making preliminary arrangements.

The women will solicit the merchants of the city and other people of the county for exhibits to be shown in the building, and will have charge of the appointment of judges and awarding of prizes. The prizes will be furnished by the fair association.

All kinds of exhibits, manufactures, cookery, handwork and agricultural products are to be shown in floral hall. The women will begin to solicit these in a few days. They want the housewives of the county to send in their canned fruits, bread, cake, butter, garden products, both vegetables and flowers, and needle work. Hand work of all kinds in wood and metal, home-made manufactures, merchandise, apples, corn, pumpkins, peaches, melons—everything in fact may be sent in by anyone in the county.

Within the next few days committees from among the women will be appointed to take charge of the different departments, and their names will be published in the papers so that the people of the county may know whom to write for information on any subject.

The lunch room which the women will conduct will be in one corner of floral hall. They will serve not light lunches at meal hours, but substantial food all day long every day of the fair.

The work on the fair grounds and buildings is nearing completion, and improvements are being added all the time. Floral hall is being painted, and will soon be ready for occupancy. The judges' stand is being built three stories high. The top story is being built for the convenience of the press. Chairs and tables will be placed there so that the newspaper men may work from a place where they can get a good view of the grounds and races and be near the judges. J. M. Stevens, manager of the fair, will have his office in that part of the judges stand so that he can easily give out the latest happenings of the fair or announce any changes that may be made.

MRS. COLLINS DEAD.

Wife of T. F. Collins of Graham Dies Last Night at St. Joseph.

Mrs. Beulah B. Collins, aged 29, the wife of Tillman F. Collins of Graham, died last night at a hospital in St. Joseph. The body was sent to the home at Graham, reaching there today noon.

Mrs. Collins is survived by her husband and four children. No arrangements have yet been made for the funeral.

HIS VOTE WILL COST \$100.

California Must Provide Election Equipment for One Vote on Catalina Island.

When Charles Wilson votes at the coming state primaries, and he insists on his right to it, it will cost the people of California \$100. Election officials here estimated today that his vote will be the most expensive in the state and perhaps in the United States.

Wilson lives on the isthmus, on Catalina Island, and is the only voter in his precinct, which is twelve miles from Avalon, the only town on the island.

Three voters will be sent up by launch or stage from Avalon to the isthmus, and, with Wilson as a fourth will constitute an election board. Wilson then will vote, and the board will cast up and certify the returns.

GOOD ROADS PRODUCE CROPS

Government Studies Show How the Agricultural Output of a County Depends Upon Its Highways.

That an improved road will increase vastly the productiveness of the area through which it runs has now been satisfactorily demonstrated by studies conducted by the United States department of Agriculture in Virginia.

Conditions in Spotsylvania county were investigated with particular care and the results have proved surprising. In 1909 the county voted \$100,000 to improve 40 miles of roads. Two years after the completion of this work the railroad took away in 12 months from Fredericksburg, the county seat, 71,000 tons of agricultural and forest products hauled over the highways to that town. Before the improvement of the roads this total was only 49,000 tons annually; in other words the quantity of the county's produce had risen more than 45 per cent.

Still more interesting, however, is the increase shown in the quantity of the dairy products. In 1909 these amounted to 114,815 pounds, in 1911 to 173,028 pounds, an increase of practically 140 per cent in two years. In the same time shipments of wheat had increased 59 per cent, tobacco 31 per cent, and lumber and other forest products 48 per cent.

In addition to this increase in quantity the cost of hauling each ton of produce was materially reduced. In other words the farmers not only produce more but produce more cheaply, for the cost of transportation to market is of course an important factor in the cost of production. From this point of view it is estimated that the \$100,000 spent in improving the roads in Spotsylvania county saved the farmers of that county \$41,000 a year.

In the past two years the traffic studies of the Federal experts show that approximately an average of 65,000 tons of outgoing products were hauled over the improved roads in the county an average distance of 8 miles, or a total of 520,000 "ton-miles." Before the roads were improved it was estimated that the average cost of hauling was 20 cents a "ton-mile;" after the improvement this fell to 12 cents a "ton-mile," or a saving of 8 cents. A saving of 8 cents per mile on 520,000 "ton-miles" is \$41,000 a year. The county's investment of \$100,000 in other words returns a dividend of 40 per cent annually.

Because this saving, in cases of this character, does not take the form of cash put directly into the farmers' pocket there is a widespread tendency to believe that it is fictitious profit, while as a matter of fact it is just as real a source of profit as the increase in the price of wheat.

In Dinwiddie county, Virginia, for example, where peanuts are one of the staple crops, the average load for two mules on a main road was about 1,000 pounds before the road was improved. After its improvement the average load was found to be 2,000 pounds and the time consumed in hauling the larger load to market was much reduced. In other words one man with a wagon and two mules could do more than twice as much work with the improved road than with an unimproved road. This is the explanation of the extraordinary rise in the total output of agricultural products in a county with a good road system.

Edwin Harvey of Pickering spent today on a business trip in Maryville.

WHAT TO DO FOR HEAT VICTIMS.

Symptoms and Treatment of Sunstroke and Heatstroke and How to Prevent Them.

Although very few persons in towns the size of Maryville are prostrated or die from attacks of the heat, yet with the thermometer ranging from 98 to 106 and the month of August still to go through, it is well to know what to do in case anyone should have a sunstroke or heat exhaustion. The symptoms are different and easily recognizable and the treatment is simple.

Heatstroke, often referred to as heat apoplexy, sunstroke or thermic fever, is induced by exposure to direct rays of the sun. It may come on very quickly and cause instant death.

Usually it is preceded by some weakness and dizziness, with a sense of oppression. This is a signal to cease all activity and seek rest in a cool place; if disregarded, unconsciousness soon follows. The breathing is rapid and labored and the pulse is weak and irregular, the body temperature is very high and may climb to 110 degrees. The face is reddened and the whole body seems afire. The pupils of the eyes are contracted. Convulsions may occur.

Heat exhaustion is more common and presents different symptoms. It is not dependent upon direct exposure to the sun, but many cases occur during indoor work in a close, hot atmosphere—an engine room, a close hayloft or a grain elevator, for instance. The symptoms are those of a general collapse. Instead of the skin's being hot and dry it is pale, moist and cool. The temperature is below normal, the pulse is rapid and weak, the mind is dazed rather than unconscious.

Here are the principal things you can do to help: In sunstroke, with its stupor and hot, dry skin, place your patient in the shade, remove any tight clothing, raise the head a little and apply cold water to head and spine until congestion is relieved. If the patient revives readily he may be left in as comfortable a position as possible until well rested and then carried home. If the stupor continues, get help to carry him to shelter and then summon a physician.

In heat exhaustion, with its moist, livid skin and general collapse, have your patient lie down with the head low. Chafe the extremities, dry the skin by brisk rubbing, give moderate stimulants or hot drinks if the patient is able to swallow, and keep him at absolute rest until good general circulation is established.

It is poor business to allow yourself to incur a sunstroke or heatstroke, because not only is one attack dangerous, but it renders you susceptible to recurrences. A man who has once suffered a sunstroke is never a good risk round a hayfield.

A strong, healthy man may work without fear of the heat in the hottest weather, but on days of high temperature and great humidity he should moderate his work and watch for any sign of exhaustion. A man in chronic ill health, one suffering from an acute ailment—even if only a cold or attack of indigestion—or one not fully recovered from a recent illness, goes into real danger in attempting hard work exposed to excessive heat, and especially when the heat is accompanied by humidity. A man with any degree of fever has no business working at any time—hot, cold or indifferent.

BEER DRINKING INCREASING.

Consumption in Missouri Grows at Astonishing Rate, Inspector Says.

C. E. Gill of Fulton, an inspector in the state beer inspection department, with headquarters in St. Louis, in an interview said that the consumption of beer in Missouri is increasing at an astonishingly rapid rate. Gill was an inspector seven years ago during the Folk regime and says that a comparison of the collections of his office for that period with 1914 will bear out his statement.

"At that time," Gill declared "all the large cities—St. Louis, Kansas City, St. Joseph, Joplin, Springfield—were open on Sunday and it would be supposed that much beer would be consumed. The fact, however, is that we had hard work bringing the revenue receipts up to \$350,000, while now we are collecting \$500,000 a year.

"We expect the collections of our department for July to aggregate \$58,000. It is not uncommon for one of the big St. Louis breweries to pay me \$2,500 as state revenue fee for one month, and it takes lots of sales of bottled and keg beer to exact that amount.

GOOD SUGGESTION TO

MARYVILLE PEOPLE

It is surprising the amount of old, foul matter the simple mixture of buckthorn bark, glycerine, etc., known as Adler-I-ka, drains from the system. This remedy became famous by curing appendicitis and acts on BOTH the upper and lower bowel so thoroughly that ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. We are mighty glad we are Maryville agents for Adler-I-ka. The Koch Pharmacy.

Mrs. W. B. Porter left yesterday afternoon for a visit of several weeks at Cameron, Mo.

Postoffice, Maryville, Mo., July 17, 1914.—Sealed proposals will be received at this office until 3 p. m., August 1, 1914, and then opened for new sidewalk and curb at this building, in accordance with the specifications, copies of which may be had at this office.

DESCRIBES PAIN'S "PANAMA."

St. Louis Times Tells of Big Electrical
Display Which May Be Brought
to Maryville.

Pain's "Panama," the electrical display which the Commercial club is trying to get here for home coming week, is now in St. Louis. A description of it is given in the St. Louis Times.

Several thousand spectators crowded the amphitheater of the Motordrome at Priester's park, Monday night, to witness the largest display of fireworks ever shown in St. Louis, the opening for a two weeks' engagement of Pain's "Panama." Several thousand also lined the surrounding streets, but were unable to see the best part of the production.

Two displays proved especially entertaining. They were Niagara Falls and Col. Roosevelt in the jungles. In the latter piece, life-sized animals cross the stage and wander through

the forests of fire. On the other side stands Teddy in hunter's garb. He fires, and one by one the animals fall before his rifle. The act is the largest pyrotechnic display ever attempted by the Pain company.

The first part of the piece shows the Panama country and the opening of the Panama canal. The great Gatun dam is blown away, and the ships pass through the waters. Panama City is shown in holiday attire. Then follows the fireworks proper, for which Pain's company is famous. For half an hour vaudeville continues, then follows the second part.

A LETTER TO YOU

Soon after Adam and Eve played the dickens in the Garden of Eden people had to put on clothes and go to work. Infant industries sprang up and everything got lively in a short time. Graft and deception, however, did not exist as early in life as some may think; but how is it today? Every conceivable method is used to get the money.

Now, people, we have brought it about "our own sweet selves." Are you getting tired of reading such stuff as the following? \$15.00 suits for \$6.99; \$4.00 hats for \$2.19; \$1.50 shirts for 79c, and so on clear down the line. We say, if you are tired of such appeals for your patronage, simply take your foot in your hand and beat it "right over to the store that has previously been known as 'The Real Bargain Store,' but which, from now on, under new management, will be known as

"Robertson's Store."

There you will find a complete line of Dry Goods, Clothing, Shoes and Furnishings, bought by one of the oldest and best known merchants in this state, and who has the advantage of an unlimited credit.

The proprietor is now in Maryville looking after this branch store. He is here to place this enterprise under proper management and business methods. He has had this in view for several years as a location for a branch store. This stock will be kept up and replenished as we become more acquainted with the needs of the people in this community. The object in view will be to meet the demands of the people for a medium priced trade. Make it a point to visit this store before buying.

We are in love with the town and people. It is to be a business courtship. We have the wedding ring, and hope within a short time to have the honor of placing it on the finger of the good people in this territory.

Hoping that we will be blessed with a good rain in time to save our crops, and that you will grant us a friendly feeling in this effort, we are,
Very truly yours,

BANDITS HOLD UP STAGE COACHES

One Hundred and Sixty five Passengers Robbed of \$3,000.

TWO MEN PULL OFF THE JOB.

Four Conveyances Are Halted in Yellowstone Park—Robbers Now Believed Headed Toward Jackson Hole Country.

Gardiner, Mont., July 30.—Stage coaches of four of the largest transportation companies operating in Yellowstone park were held up by two men.

The 165 passengers on the stages were robbed of their money, and it is reported that the robbers secured a total of \$3,000.

The holdups occurred at different times at Spring Creek canyon, four miles from Old Faithful, a geyser.

Lieutenant Colonel L. M. Brett has a large force of men pursuing the robbers, who were reported to be headed toward the Jackson Hole country, in Wyoming. Only one robber participated actively in the holdups, the second man remaining behind trees as a lookout.

The transportation companies offered rewards aggregating \$500 for the capture of the bandits. Passengers on the stages said that the one man who did the actual work of robbing held up each stage as it passed the canyon by pointing a gun at the driver.

The highwaymen had the advantage because government regulations prevent any person except those with permits from carrying arms in the park.

The following is a partial list of the passengers who were robbed: Mrs. S. P. Kidder, Madison, Wis.; Martin Rutkowski and wife, Milwaukee; Frank Bole, Davenport, Ia.; Russell Bole, Davenport, Ia.; Mrs. H. J. Baldwin, Joplin, Mo.; and Mrs. H. J. Cawley, Kansas City, Mo.

FREED ON 'BOODLE CHARGE

Former Rock Island County Officials Not Guilty of Conspiracy.

Rock Island, Ill., July 30.—The trial of Sheriff O. L. Bruner and former State's Attorney L. M. Magill ended with the acquittal of the defendants, who were charged with having conspired to defeat justice by freeing prisoners from the county jail for cash considerations.

The prosecution called several men and women who alleged that they had paid money to both Bruner and Magill, but, in each instance, it had been explained to them, they said, that the cash advanced was for the purpose of securing bonds. Magill's term as state's attorney expired a year ago.

Orders Correspondent Deported.

Washington, July 30.—Secretary Garrison announced that he would direct General Funston at Vera Cruz to deport from Mexico Fred L. Boalt, the correspondent for the Newspaper Enterprise association, who sent out a sensational story that an American naval officer applied the "law of light" to Mexican prisoners. A court of inquiry pronounced the story false. The time and manner of Boalt's deportation will be left with General Funston.

Moyer Defends Acts.

Denver, July 30.—Charles H. Moyer, president of the Western Federation of Miners, made a general defense of his conduct in connection with the recent Butte labor war, in an address before the federation convention. The delegates resumed their discussion of a report by a special committee which investigated various charges against the president. The report was favorable to Moyer.

RUSSIA IS
MOBILIZING
ITS ARMYCzar's Action Makes
War Certain.

WILL SUPPORT SERVIANS

Indications Whole Military Ma-
chinery Will Soon Be In Motion.

IMPERIAL UKASE IS ISSUED.

Czar Calls to the Colors Immense
Number of Reservists.

London, July 30.—The following St. Petersburg dispatch was passed by the censor without requisition—a fact which is considered highly significant: In Russian eyes the die is cast. Only a political miracle can avert war. Russia does not swerve from its determination to support Serbia and partial mobilization has already been ordered. There is every indication that the whole vast military machinery of Russia will soon be set in motion. An Imperial manifesto is awaited. Should Emperor Nicholas become generalissimo of the forces, as it is understood he will, an immense wave of enthusiasm will sweep over Russia. The political parties have sunk their differences. The general attitude is not jingoistic, but one of resolute confidence in the justice of the country's cause and readiness to make all sacrifices. The proposal attributed to Austria to discuss terms when Belgrade has been occupied is regarded as impossible. It is pointed out that before the opening of hostilities Russia proposed to Austria a direct exchange of views, which Austria rejected.

An Imperial ukase issued by the emperor calls to the colors an immense number of reservists.

According to the Times diplomatic intercourse between Austria and Russia has been suspended.

An important official conference was held in Berlin owing to the reported mobilization of the Russian troops. No orders for a corresponding step in connection with the German army have apparently yet been issued.

War Spirit Rising.

Vienna, July 30.—The war spirit in the Austrian capital is hourly increasing. The streets of Vienna were so crowded with enthusiastic persons, singing and hurraing, that it was the leading thoroughfares was almost brought to a standstill. The patriotic demonstrations surpassed in extent and fervor anything witnessed within memory.

A dispatch to a Vienna paper says that three of the Danube monitors began shelling Belgrade early in the morning after the bridge across the Save had been destroyed by the Servians. The shells wrought havoc in the exposed part of the city, damaging the king's palace, the fortification walls, the barracks and other buildings. The dispatch says that the Servians did not return the fire.

Demonstrations in Russia.

St. Petersburg, July 30.—A great patriotic demonstration took place on the Nevsky prospect. A procession was formed and, with banners flying, marched to the Servian legation, where there were speeches, singing and cheering. Thence the procession moved to the French and British embassies, where similar scenes of enthusiasm were enacted, the crowds increasing in size.

The cadets of the naval schools were promoted to the rank of officers. In addressing them the emperor said: "I have given orders that you should be incorporated in the navy in view of the serious events through which Russia is passing."

Cabinet Council in Berlin.

Berlin, July 30.—The public was anxiously awaiting the result of a cabinet council held on the Austro-Servian situation, but nothing transpired to relieve the suspense. Information was also anxiously awaited concerning telegrams exchanged between Emperor William and Emperor Nicholas, but here, too, hopes were blasted. The public nevertheless still sees a favorable augury in the interchanged of telegrams itself. Meanwhile news continues to pour into Berlin regarding Russia's military measures.

Explosion Kills Potash Miners.
Cassel, Germany, July 30.—Twelve potash miners were blown to pieces by the explosion of eighty pounds of dynamite while they were sinking a shaft in the Krajaill mine, near here.

SERVIAN CAPITAL
IS CAPTUREDBelgrade Occupied by Austrians
After Bombardment.

Vienna, July 30.—The Servians blew up the bridge spanning the River Save between the Austrian town of Semlin and Belgrade. The Austrian infantry and artillery station at Semlin, in conjunction with monitors on the Danube, fired on the Servian positions beyond the bridge. The Servians retreated after a short engagement with trifling losses.

A small detachment of pioneers, in co-operation with the customs officers, captured two Servian steamers laden with ammunition and mines. The pioneers and revenue guards, after a sharp encounter, overcame the Servian crews and took possession of the vessels and their dangerous cargoes. The captured ships were towed away by one of the Danube steamers.

A Vienna dispatch to the Exchange Telegraph company says: "After a heavy bombardment by the Danube gunboats, Belgrade was occupied by the Austrian troops."

COST OF EUROPEAN WAR

Conflict Would Mean Five Million Dollars a Day.

New York, July 30.—"War is, as everybody knows, the greatest destroyer of capital," says W. C. Van Antwerp in his book, "The Stock Exchange From Within." "England's little Transvaal war cost \$1,000,000 a day and, by the chancellor of the exchequer's report, resulted in a total expenditure of \$1,985,000,000. The war between Russia and Japan cost upward of \$3,000,000 a day and \$2,000,000,000 all told.

"What a great war would cost England if that country were to cross swords with one of the other powers may be conjectured; what would happen on the stock exchange takes imagination."

Conservative critics estimate that a war between the triple alliance and the triple entente would cost at least \$5,000,000 a day and might run on for a year or more. Such costs cannot be imagined, and this is the strongest argument for peace.

Try to Rush Cordon.

Paris, July 30.—Notwithstanding the order of the government prohibiting an anti-war meeting called by the revolutionary labor organization, thousands of workmen assembled and tried to rush the cordons of police in order to enter the meeting place. Fierce scrimmages ensued, and 250 of the rioters were arrested.

There has been no changes in the gravity of the situation. At the Elysee palace President Poincaré was engaged until a late hour in conferring with Premier Viviani and the cabinet ministers. The government was continuing to use every means to reach a basis for the conciliation of the hostile countries.

Serbs and Austrians Fight.

Los Angeles, July 30.—Rioting broke out here in the portion of the city where Servians and Austrians live. There was some shooting, but no one was found to have been injured by a bullet. Police reserves suppressed the disturbance. Several Austrians were arrested.

Warburg Will Confer With Senators.

NEXT EXCURSION TO VALENTINE VALLEY, TEXAS, TUESDAY, AUGUST 4.

In a letter from Mr. Gingrich July 16, he states that crops are fine, that on July the fourth they had three inches of rain and a good rain on the 15th. Everything looking fine. Corn is laid by and that he has planted nearly every thing you could think of and its doing fine and his suggestion to us is tell my friends up there that they should come down and look at the country, that its fine. That its a good stock country and no one can lose, but bound to make money. That its a fine stock country and anything you plant takes hold. **DON'T FORGET THE DATE, AUG. 4.**

A UNION FAVORED

TELEPHONE MEN PASS RESOLUTION TO PUT PLAN THROUGH.

TO MEET AGAIN SOON

Will Adopt Constitution and Elect Officers—Means Nearly 100 Miles of New Lines in the County.

With more than half the mutual telephone exchanges represented at yesterday's meeting in the court house, W. O. Garrett's resolution to the effect that a county organization for the purpose of uniting and improving the telephone lines was unanimously adopted. The resolution reads:

"Whereas, It is the sense of this convention that it will be to the best interests of the various mutual telephone exchanges of Nodaway county, Missouri, and to the members thereof, that a general county organization be effected to take charge of and control all commercial wires connecting the various local mutual exchanges of said county, and for the purpose of further advancing the general interest and utility of said mutual telephone exchanges; therefore, be it

"Resolved, That we, the representatives of the various mutual telephone exchanges of Nodaway county, in convention assembled, believe it to be the mutual benefit of all said local telephone exchanges, that a county organization or association be effected, to be composed of the presidents of each local exchange, said county organization to have charge of and control all commercial wires connecting said local exchanges in the county, and to do and perform all things necessary to promote the general welfare of said mutual exchanges, leaving the entire control and management of the local exchange to the local board of directors. Be it further

"Resolved, That a committee, consisting of the president of each exchange, be authorized by this convention to effect such an organization and prepare a constitution and by-laws, and that the same be referred to each local exchange in said county for their approval and adoption.

"Respectfully submitted."

The presidents of all the county exchanges will be notified at once of the result of the meeting yesterday, and as soon as possible they will be called together in a meeting to draw up a constitution and by-laws and perfect an organization.

This will mean that nearly 100 miles of new commercial wires will be erected in Nodaway county to relieve the present crowded condition of the mutual telephone lines. The entire service will be bettered and more direct lines between Maryville and other towns will give better service to the far points of the county.

Yesterday's meeting was the third in the attempt to get enough men together to transact any business. The first meeting was held early in May and the second July 1. At these meetings a good representation was had from certain districts, but not until yesterday were districts from several parts of the county represented.

From the favorable attitude of the men at each meeting and the personal approval expressed by the mutual officers all over the county to W. O. Garrett and Alfred Shackelford in a trip over the county, there will be no opposition to a union organized along the lines of the resolution adopted yesterday.

Those present yesterday were: Maryville, William Moxing, H. W. Hull, William Job, W. O. Garrett, Alfred Shackelford, W. D. Scott and J. A. Croy; Pickering, William Burk; Clearmont, C. E. Kelly; Burlington Junction, F. C. Fleming; Arkoe, E. E. Woodward, C. A. Bainum, G. W. Wamsley; Graham, T. I. McNeal, F. E. McNeal, G. W. Galbreth, George Herron, Dan McGrew; Clyde, Gabe Purcell; Bedison, Wilmer Young; Ravenwood, James Colvin; Wilcox, William Ritchie; Barnard, Zell Thompson.

Out of Jail Into Jail.

James Stuart was released from the city jail yesterday morning, having completed his term. In the afternoon he got drunk, was arrested and thrown into jail again. This morning he was fined \$10 and costs, which he was not able to pay. He is working out the fine on the streets.

William Drum was arraigned in police court this morning on a charge of drunkenness, pleaded guilty and was fined \$5 and costs.

Henry and Charles Peterson of Valentine Valley, Texas, are in Maryville this week on business.

Old Oak Saloon Is Being Made Into Room—No Tenant Yet.

Adolph Lippman is having the old Oak saloon remodeled so as to be suitable for store purposes. It is being refinished and redecorated, concrete floors are being put in the basement and new plumbing is being installed. The area under the sidewalk is being excavated for storage purposes.

Mr. Lippman said this afternoon that as yet he has no tenant for the building.

COCKAYNE TRIAL IS TOMORROW.

Nodaway Farmer Charged With Reckless Driving in St. Joseph—J. C. Dugdale Will Sue.

E. A. Cockayne, a farmer living near Maryville, will be tried in St. Joseph tomorrow, charged by the city with reckless driving.

The occasion of the trial is due to an accident July 5, in which Cockayne ran down and injured J. C. Dugdale of St. Joseph. Mr. Cockayne was driving his car past a street car, when Dugdale ran in front of the street car and was struck by the automobile.

Mr. Dugdale has retained an attorney and will sue Mr. Cockayne for personal damages.

HAS TO BE ORDERED.

Order Issued to Stop Designing Merchants From Dumping Packages C. O. D.

The postmaster general this week issued an order to prevent designing merchants from forcing their goods on persons through the aid of the parcel post.

Many complaints have been received at the postoffice department since the recent order permitting the sending of parcels C. O. D. through the mails that persons have had parcels dumped on them which they did not contract to purchase.

Under the order issued persons do not have to accept collect on delivery parcel post packages unless those packages were ordered by them. Postmasters have been instructed not to urge their acceptance in any case.

CHALLENGERS ARE DEFEATED.

Nodaway County Students Offer to Play All Others and Lose Ball Game 4-5.

During the assembly hour yesterday morning, the Nodaway county base ball players challenged the players from all other counties to a game of base ball. The gauntlet was accepted, and in the afternoon Nodaway went down to defeat by a score of 5-4.

For the first few innings it looked as if the combined counties would have things all their own way, as they scored twice in the first inning and once in the second, and made more count in the third. The Nodaway team found its stride in the third, however, and ran in four scores, tying the game.

Neither team scored in the fourth inning, and the combined counties scored their winning run in the fifth. The batteries were: Nodaway, Richards and Ham; combined counties, Wogan and Dyer.

MT. TABOR WINS IS GOOD REPORT

HAS BEST ATTENDANCE, LARGEST PLEDGE AT S. S. CONVENTION.

TO SKIDMORE IN 1915

Delegates at Burlington Junction Numbered 235—Meeting Closed Yesterday—Officers Elected.

Mt. Tabor, a small country Sunday school near Elmo, was the banner Sunday school represented at the county Sunday school convention, which closed at Burlington Junction yesterday.

This little school of about forty members pledged the largest sum toward the county and state work for next year. Its pledge was \$30. Mt. Tabor also won the banner given to the school with the largest per cent of its enrollment present. The enrollment was based on last year's report. Mt. Tabor then had thirty-five pupils. Thirty-six registered at Burlington Junction, making its percentage 102.

The Wilcox South Methodist Sunday school came second with 100 per cent. Everyone of its sixty-five pupils attended the convention.

The convention closed its two days' session last night, having been attended throughout with much enthusiasm, and more than twice as many delegates registered as did at Maryville last year. The total number of delegates from outside Burlington Junction was 235, and they represented thirty county Sunday schools. Representatives were present from Sunday schools in Brookfield, Pattonsburg, Tarkio, Kansas City and Liberty.

The addresses of S. L. Williams, state superintendent, and Miss Eva N. Welch of Kansas City, whose special line of work is with the elementary departments, were among the best things on the program. The illustrated lecture given by the Rev. C. R. Green of Harmony on "A Country Sunday School" drew a large crowd Tuesday night and was one of the big numbers of the convention.

The pledges for next year's county and state work amounted to \$225. Next year the convention will go to Skidmore.

The officers elected for the coming year are:

President, H. C. Bower of Maryville. Vice president, E. H. Sims of Ravenwood.

Secretary, Miss Eva Davis of Maryville.

Treasurer, T. A. Corken, Burlington Junction.

Elementary department, Miss Elizabeth Evans, Maryville.

Secondary department, Miss Iva Vance, Burlington Junction.

Adult department, C. R. Harmon, Pickering.

Teachers' training department, G. L. Owen, Skidmore.

Home department, Mrs. John Morehouse, Hopkins.

Missions, Miss Ethel Gillinger of Quitman.

S. H. KEMP HEARS FROM FREMONT, NEB., Y. M. C. A.

ANNUAL INCOME \$9000

Dormitories Bring \$2,500—Subscriptions Were Liberal—One Man Gave \$5,000—Nearly Free of Debt.

During his trip through the west the last three weeks, S. H. Kemp visited many Y. M. C. A.'s, inspected the buildings and asked for detailed reports of the associations to be sent to him here, that the local committee might get suggestions from them. The first of these reports came today from the association in Fremont, Neb.

Fremont is a city of 10,000 population, and although more money was put into the Y. M. C. A. than is planned to put into the one here, it is a financial success. The total cost, building, lot and furnishings was a little more than \$67,000. Of this \$40,000 was paid from the money raised at first, and the remaining debt will be paid this fall.

The association's annual income is \$9,000. This is from several sources. The dormitories, a feature which the local committee expects to make much of, bring in \$2,500 a year. The income from annual fees is \$4,000. A cafeteria is run in connection with the Fremont Y. M. C. A., and it nets \$1,000 a year. General subscriptions bring in \$1,000 and miscellaneous fees from gymnasium privileges amount to \$500.

When the campaign for a Y. M. C. A. was started in Fremont, subscriptions were given liberally. One business man gave \$5,000. Another subscribed \$4,000, and a third \$2,000. Eight men gave more than \$1,000 each, and thirteen gave more than \$500 each.

From these reports which come in and from Mr. Kemp's personal visits to these various associations, the local committee expects to get many valuable ideas and a pretty exact estimate of just what can be done here toward building and maintaining a Y. M. C. A. The result of their investigations will be made as soon as possible, and the campaign started after Judge Selden P. Spencer's lecture on the subject at Chautauqua.

PICKPOCKET GETS \$600.

Charles Hassler of Guilford Is Robbed While at Circus in St. Joseph.

Charles Hassler of Guilford has reported to the police that he was robbed of his pocketbook containing \$110 in cash and between \$400 and \$500 in notes payable to himself while attending the circus in St. Joseph yesterday.

The pocketbook was taken by some pickpocket. The cash consisted of three twenty-dollar bills, four ten-dollar bills, and two five-dollar bills.

STAMPS FOR PEACE CENTENARY.

The United States to Commemorate British-American Amity.

As its contribution to the celebration this year to the centenary of peace between Great Britain and the United States, the postoffice department is preparing to issue two special stamps, the designs for which have been approved by Postmaster General Burleson.

The stamps, of 2 and 5-cent denominations, will be ready for issue early in the fall. The words "Peace, 1814-1914," will be on each. The 2-cent stamp will have on it a hemisphere, with a female figure on the left holding an American flag, and on the right a figure bearing a British flag, the two clasping hands across the hemisphere. On the 5-cent stamp will be a winged figure typifying the spirit of peace, and with a dove of peace flying before it.

A WATER SUPPLY UP THE RIVER.

Manager Denny Says There Will Be No Shutdown Unless Absolutely Necessary.

"I will not shut down the water unless I absolutely have to," said L. A. Denny, manager of the water company, this morning. "I think rains will come soon enough to relieve the situation."

If they do not, Mr. Denny says he can get enough water from up the river to help for a time. The Burlington railroad officials have offered to send some men here to ditch the bed of the river if that becomes necessary.

If the worst comes, Mr. Denny said he would order the dam above Hopkins, built in order to float the dredge boat which is digging the drainage ditch, to be opened so that the water will come down the river. He does not want to do that if it can be helped, however.

The only reason for the supply lasting this long, he thinks, is the care which has been taken to keep water from flowing past the dam. As soon as it reaches the level of the dam and begins to flow over, the pumps took the water directly out of the river and ceased to draw from the reservoir. There is a good supply in the reservoir at present.

Pierce For Governor.

W. C. Pierce, who is perhaps the best known as well as one of the most popular men in the county, was up from the county seat on business last Monday and took time to drop into the Journal office to say "Hello," says the Hopkins Journal.

The Journal once said that Nodaway county has good gubernatorial timber and we will stick to the statement with the "P. S." that you need not look farther than the office of "Cal" Pierce to find it. Whether you could get him to take it or not is a horse of another color, for his trust company is likely making more money than the combined salaries of half the governors of the United States. It would simply be a matter of whether he considered it his duty to become a living sacrifice for the good of the common weal. Thousands of prominent men throughout Missouri would like to see him head the Republican state ticket. He's a fighter and the kind that wins.

WOMEN HAVE HALL

FAIR'S MAIN EXHIBIT BUILDING TURNED OVER TO THEM.

LUNCHEES AT ALL HOURS

General Federation of Women's Clubs Will Solicit and Manage All Exhibits Shown There.

Floral hall, the main exhibit building of the Nodaway county fair, has been put in charge of the General Federation of Women's Clubs.

The club women of the city wished to have the concession for the serving of lunches at the fair as a means of making money to put into the rest rooms fund. Yesterday the officers of the fair association offered to give the women this concession free if they would take complete charge of floral hall and its exhibits. The women met last night and decided to accept the offer, and today began their work by inspecting the hall and making preliminary arrangements.

The women will solicit the merchants of the city and other people of the county for exhibits to be shown in the building, and will have charge of the appointment of judges and awarding of prizes. The prizes will be furnished by the fair association.

All kinds of exhibits, manufactures, cookery, handwork and agricultural products are to be shown in floral hall. The women will begin to solicit these in a few days. They want the housewives of the county to send in their canned fruits, bread, cake, butter, garden products, both vegetables and flowers, and needle work. Handwork of all kinds in wood and metal, home-made manufactures, merchandise, apples, corn, pumpkins, peaches, melons—everything in fact may be sent in by anyone in the county.

Within the next few days committees from among the women will be appointed to take charge of the different departments, and their names will be published in the papers so that the people of the county may know whom to write for information on any subject.

The lunch room which the women will conduct will be in one corner of floral hall. They will serve not light lunches at meal hours, but substantial food all day long every day of the fair.

The work on the fair grounds and buildings is nearing completion, and improvements are being added all the time. Floral hall is being painted, and will soon be ready for occupancy. The judges' stand is being built three stories high. The top story is being built for the convenience of the press. Chairs and tables will be placed there so that the newspaper men may work from a place where they can get a good view of the grounds and races and be near the judges. J. M. Stevens, manager of the fair, will have his office in that part of the judges stand so that he can easily give out the latest happenings of the fair or announce any changes that may be made.

HIS VOTE WILL COST \$100.

California Must Provide Election Equipment for One Vote on Catalina Island.

When Charles Wilson votes at the coming state primaries, and he insists on his right to it, it will cost the people of California \$100. Election officials here estimated today that his vote will be the most expensive in the state and perhaps in the United States.

Wilson lives on the isthmus, on Catalina island, and is the only voter in his precinct, which is twelve miles from Avalon, the only town on the island.

Three voters will be sent up by launch or stage from Avalon to the isthmus, and, with Wilson as a fourth will constitute an election board. Wilson then will vote, and the board will cast up and certify the returns.

GOOD ROADS PRODUCE CROPS

Government Studies Show How the Agricultural Output of a County Depends Upon Its Highways.

That an improved road will increase the productivity of the area through which it runs has now been satisfactorily demonstrated by studies conducted by the United States department of Agriculture in Virginia.

Conditions in Spotsylvania county were investigated with particular care and the results have proved surprising. In 1909 the county voted \$100,000 to improve 40 miles of roads. Two years after the completion of this work the railroad took away in 12 months from Fredericksburg, the county seat, 71,000 tons of agricultural and forest products hauled over the highways to that town. Before the improvement of the roads this total was only 49,000 tons annually; in other words the quantity of the county's produce had risen more than 45 per cent.

Still more interesting, however, is the increase shown in the quantity of the dairy products. In 1909 these amounted to 114,815 pounds, in 1911 to 373,025 pounds, an increase of practically 140 per cent in two years. In the same time shipments of wheat had increased 59 per cent, tobacco 31 per cent, and lumber and other forest products 48 per cent.

In addition to this increase in quantity the cost of hauling each ton of produce was materially reduced. In other words the farmers not only produce more but produce more cheaply, for the cost of transportation to market is of course an important factor in the cost of production. From this point of view it is estimated that the \$100,000 spent in improving the roads in Spotsylvania county saved the farmers of that county \$41,000 a year.

In the past two years the traffic studies of the Federal experts show that approximately an average of 65,000 tons of outgoing products were hauled over the improved roads in the county an average distance of 8 miles, or a total of 520,000 "ton-miles." Before the roads were improved it was estimated that the average cost of hauling was 20 cents a "ton-mile;" after the improvement this fell to 12 cents a "ton-mile," or a saving of 8 cents. A saving of 8 cents per mile on 520,000 "ton-miles" is \$41,000 a year. The county's investment of \$100,000 in other words returns a dividend of 40 per cent annually.

Because this saving, in cases of this character, does not take the form of cash put directly into the farmers' pocket there is a widespread tendency to believe that it is fictitious profit, while as a matter of fact it is just as real a source of profit as the increase in the price of wheat.

In Dinwiddie county, Virginia, for example, where peanuts are one of the staple crops, the average load for two mules on a main road was about 1,600 pounds before the road was improved. After its improvement the average load was found to be 2,600 pounds and the time consumed in hauling the larger load to market was much reduced. In other words one man with a wagon and two mules could do more than twice as much work with the improved road than with an unimproved road. This is the explanation of the extraordinary rise in the total output of agricultural products in a county with a good road system.

Edwin Harvey of Pickering spent today on a business trip in Maryville.

WHAT TO DO FOR HEAT VICTIMS.

Symptoms and Treatment of Sunstroke and Heatstroke and How to Prevent Them.

Although very few persons in towns the size of Maryville are prostrated or die from attacks of the heat, yet with the thermometer ranging from 98 to 106 and the month of August still to go through, it is well to know what to do in case anyone should have a sunstroke or heat exhaustion. The symptoms are different and easily recognizable and the treatment is simple.

Heatstroke, often referred to as heat apoplexy, sunstroke or thermic fever, is induced by exposure to direct rays of the sun. It may come on very quickly and cause instant death.

Usually it is preceded by some weakness and dizziness, with a sense of oppression. This is a signal to cease all activity and seek rest in a cool place; if disregarded, unconsciousness soon follows. The breathing is rapid and labored and the pulse is weak and irregular, the body temperature is very high and may climb to 110 degrees. The face is reddened and the whole body seems afire. The pupils of the eyes are contracted. Convulsions may occur.

Heat exhaustion is more common and presents different symptoms. It is not dependent upon direct exposure to the sun, but many cases occur during indoor work in a close, hot atmosphere—an engine room, a close hayloft or a grain elevator, for instance. The symptoms are those of a general collapse. Instead of the skin's being hot and dry it is pale, moist and cool. The temperature is below normal, the pulse is rapid and weak, the mind is dazed rather than unconscious.

Here are the principal things you can do to help: In sunstroke, with its stupor and hot, dry skin, place your patient in the shade, remove any tight clothing, raise the head a little and apply cold water to head and spine until congestion is relieved. If the patient revives readily he may be left in as comfortable a position as possible until well rested and then carried home. If the stupor continues, get help to carry him to shelter and then summon a physician.

In heat exhaustion, with its moist, livid skin and general collapse, have your patient lie down with the head low. Chafe the extremities, dry the skin by brisk rubbing, give moderate stimulants or hot drinks if the patient is able to swallow, and keep him at absolute rest until good general circulation is established.

It is poor business to allow yourself to incur a sunstroke or heatstroke, because not only is one attack dangerous, but it renders you susceptible to recurrences. A man who has once suffered a sunstroke is never a good risk round a hayfield.

A strong, healthy man may work without fear of the heat in the hottest weather, but on days of high temperature and great humidity he should moderate his work and watch for any sign of exhaustion. A man in chronic ill health, one suffering from an acute ailment—even if only a cold or attack of indigestion—or one not fully recovered from a recent illness, goes into real danger in attempting hard work exposed to excessive heat, and especially when the heat is accompanied by humidity. A man with any degree of fever has no business working at any time—hot, cold or indifferent.

BEER DRINKING INCREASING.

Consumption in Missouri Grows at Astonishing Rate, Inspector Says.

C. E. Gill of Fulton, an inspector in the state beer inspection department, with headquarters in St. Louis, in an interview said that the consumption of beer in Missouri is increasing at an astonishingly rapid rate. Gill was an inspector seven years ago during the Folk regime and says that a comparison of the collections of his office for that period with 1914 will bear out his statement.

"At that time," Gill declared "all the large cities—St. Louis, Kansas City, St. Joseph, Joplin, Springfield—were open on Sunday and it would be supposed that much beer would be consumed. The fact, however, is that we had hard work bringing the revenue receipts up to \$250,000, while now we are collecting \$500,000 a year.

"We expect the collections of our department for July to aggregate \$58,000. It is not uncommon for one of the big St. Louis breweries to pay me \$2,500 as state revenue fee for one month, and it takes lots of sales of bottled and keg beer to exact that amount.

GOOD SUGGESTION TO

MARYVILLE PEOPLE

It is surprising the amount of old, foul matter the simple mixture of buckthorn bark, glycerine, etc., known as Adler-I-ka, drains from the system. This remedy became famous by curing appendicitis and acts on BOTH the upper and lower bowel so thoroughly that ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. We are mighty glad we are Maryville agents for Adler-I-ka. The Koch Pharmacy.

Mrs. W. B. Porter left yesterday afternoon for a visit of several weeks at Cameron, Mo.

Postoffice, Maryville, Mo., July 17, 1914.—Sealed proposals will be received at this office until 3 p. m., August 1, 1914, and then opened for new sidewalk and curb at this building, in accordance with the specifications, copies of which may be had at this office. JAMES TODD, Custodian.

DESCRIBES PAIN'S "PANAMA."

St. Louis Times Tells of Big Electrical Display Which May Be Brought to Maryville.

Pain's "Panama," the electrical display which the Commercial club is trying to get here for home coming week, is now in St. Louis. A description of it is given in the St. Louis Times.

Several thousand spectators crowded the amphitheater of the Motordrome at Priestler's park, Monday night, to witness the largest display of fireworks ever shown in St. Louis, the opening for a two weeks' engagement of Pain's "Panama." Several thousand also lined the surrounding streets, but were unable to see the best part of the production.

Two displays proved especially entertaining. They were Niagara Falls and Col. Roosevelt in the jungles. In the latter piece, life-sized animals cross the stage and wander through

the forests of fire. On the other side stands Teddy in hunter's garb. He fires, and one by one the animals fall before his rifle. The act is the largest pyrotechnic display ever attempted by the Pain company.

The first part of the piece shows the Panama country and the opening of the Panama canal. The great Gatun dam is blown away, and the ships pass through the waters. Panama City is shown in holiday attire. Then follows the fireworks proper, for which Pain's company is famous. For half an hour vaudeville continues, then follows the second part.

A LETTER TO YOU

Soon after Adam and Eve played the dickens in the Garden of Eden people had to put on clo'es and go to work. Infant industries sprang up and everything got lively in a short time. Graft and deception, however, did not exist as early in life as some may think; but how is it today? Every conceivable method is used to get the money.

Now, people, we have brought it about "our own sweet selves." Are you getting tired of reading such stuff as the following? \$15.00 suits for \$6.99; \$4.00 hats for \$2.19; \$1.50 shirts for 79c, and so on clear down the line. We say, if you are tired of such appeals for your patronage, simply take your foot in your hand and beat it "right over to the store that has previously been known as 'The Real Bargain Store,' but which, from now on, under new management, will be known as

"Robertson's Store."

There you will find a complete line of Dry Goods, Clothing, Shoes and Furnishings, bought by one of the oldest and best known merchants in this state, and who has the advantage of an unlimited credit.

The proprietor is now in Maryville looking after this branch store. He is here to place this enterprise under proper management and business methods. He has had this in view for several years as a location for a branch store. This stock will be kept up and replenished as we become more acquainted with the needs of the people in this community. The object in view will be to meet the demands of the people for a medium priced trade. Make it a point to visit this store before buying.

We are in love with the town and people. It is to be a business courtship. We have the wedding ring, and hope within a short time to have the honor of placing it on the finger of the good people in this territory.

Hoping that we will be blessed with a good rain in time to save our crops, and that you will grant us a friendly feeling in this effort, we are,
Very truly yours,

BANDITS HOLD UP STAGE COACHES

One Hundred and Sixty five Passengers Robbed of \$3,000.

TWO MEN PULL OFF THE JOB.

Four Conveyances Are Halted in Yellowstone Park—Robbers Now Believed Headed Toward Jackson Hole Country.

Gardiner, Mont., July 30.—Stage coaches of four of the largest transportation companies operating in Yellowstone park were held up by two men.

The 165 passengers on the stages were robbed of their money, and it is reported that the robbers secured a total of \$3,000.

The holdups occurred at different times at Spring Creek canyon, four miles from Old Faithful, a geyser.

Lieutenant Colonel L. M. Brett has a large force of men pursuing the robbers, who were reported to be headed toward the Jackson Hole country, in Wyoming. Only one robber participated actively in the holdups, the second man remaining behind trees as a lookout.

The transportation companies offered rewards aggregating \$500 for the capture of the bandits. Passengers on the stages said that the one man who did the actual work of robbing held up each stage as it passed the canyon by pointing a gun at the driver.

The highwaymen had the advantage because government regulations prevent any person except those with permits from carrying arms in the park.

The following is a partial list of the passengers who were robbed: Mrs. S. P. Kidder, Madison, Wis.; Martin Rutkowski and wife, Milwaukee; Frank Bole, Davenport, Ia.; Russell Bole, Davenport, Ia.; Mrs. H. J. Baldwin, Joplin, Mo.; and Mrs. H. J. Cawley, Kansas City, Mo.

FREED ON BOODLE CHARGE

Former Rock Island County Officials Not Guilty of Conspiracy.

Rock Island, Ill., July 30.—The trial of Sheriff O. L. Bruner and former State's Attorney L. M. Magill ended with the acquittal of the defendants, who were charged with having conspired to defeat justice by freeing prisoners from the county jail for cash considerations.

The prosecution called several men and women who alleged that they had paid money to both Bruner and Magill, but, in each instance, it had been explained to them, they said, that the cash advanced was for the purpose of securing bonds. Magill's term as state's attorney expired a year ago.

Orders Correspondent Deported.

Washington, July 30.—Secretary Garrison announced that he would direct General Funston at Vera Cruz to report from Mexico Fred L. Boalt, the correspondent for the Newspaper Enterprise association, who sent out a sensational story that an American naval officer applied the "law of light" to Mexican prisoners. A court of inquiry pronounced the story false. The time and manner of Boalt's deportation will be left with General Funston.

Moyer Defends Acts.

Denver, July 30.—Charles H. Moyer, president of the Western Federation of Miners, made a general defense of his conduct in connection with the recent Butte labor war, in an address before the federation convention. The delegates resumed their discussion of a report by a special committee which investigated various charges against the president. The report was favorable to Moyer.

RUSSIA IS
MOBILIZING
ITS ARMY

Czar's Action Makes
War Certain.

WILL SUPPORT SERVIANS

Indications Whole Military Machinery Will Soon Be In Motion.

IMPERIAL UKASE IS ISSUED.

Czar Calls to the Colors Immense Number of Reservists.

London, July 30.—The following St. Petersburg dispatch was passed by the censor without requisition—a fact which is considered highly significant: In Russian eyes the die is cast. Only a political miracle can avert war. Russia does not swerve from its determination to support Serbia and partial mobilization has already been ordered. There is every indication that the whole vast military machinery of Russia will soon be set in motion. An imperial manifesto is awaited. Should Emperor Nicholas become generalissimo of the forces, as it is understood he will, an immense wave of enthusiasm will sweep over Russia. The political parties have sunk their differences. The general attitude is not jingoistic, but one of resolute confidence in the justice of the country's cause and readiness to make all sacrifices. The proposal attributed to Austria to discuss terms when Belgrade has been occupied is regarded as impossible. It is pointed out that before the opening of hostilities Russia proposed to Austria a direct exchange of views, which Austria rejected. An imperial ukase issued by the emperor calls to the colors an immense number of reservists. According to the Times diplomatic intercourse between Austria and Russia has been suspended. An important official conference was held in Berlin owing to the reported mobilization of the Russian troops. No orders for a corresponding step in connection with the German army have apparently yet been issued.

War Spirit Rising.

Vienna, July 30.—The war spirit in the Austrian capital is hourly increasing. The streets of Vienna were so crowded with enthusiastic persons, singing and shouting, that the leading thoroughfares was almost brought to a standstill. The patriotic demonstrations surpassed in extent and fervor anything witnessed within memory.

A dispatch to a Vienna paper says that three of the Danube monitors began shelling Belgrade early in the morning after the bridge across the Save had been destroyed by the Servians. The shells wrought havoc in the exposed part of the city, damaging the king's palace, the fortification walls, the barracks and other buildings. The dispatch says that the Servians did not return the fire.

Demonstrations in Russia.

St. Petersburg, July 30.—A great patriotic demonstration took place on the Nevsky prospect. A procession was formed and, with banners flying, marched to the Servian legation, where there were speeches, singing and cheering. Thence the procession moved to the French and British embassies, where similar scenes of enthusiasm were enacted, the crowds increasing in size.

The cadets of the naval schools were promoted to the rank of officers. In addressing them the emperor said: "I have given orders that you should be incorporated in the navy in view of the serious events through which Russia is passing."

Cabinet Council in Berlin.

Berlin, July 30.—The public was anxiously awaiting the result of a cabinet council held on the Austro-Servian situation, but nothing transpired to relieve the suspense. Information was also anxiously awaited concerning telegrams exchanged between Emperor William and Emperor Nicholas, but here, too, hopes were blasted. The public nevertheless still sees a favorable augury in the interchanged of telegrams itself. Meanwhile news continues to pour into Berlin regarding Russia's military measures.

Explosion Kills Potash Miners.
Cassel, Germany, July 30.—Twelve potash miners were blown to pieces by the explosion of eighty pounds of dynamite while they were sinking a shaft in the Krajall mine, near here.

SERVIAN CAPITAL
IS CAPTURED

Belgrade Occupied by Austrians
After Bombardment.

Vienna, July 30.—The Servians blew up the bridge spanning the River Save between the Austrian town of Semlin and Belgrade. The Austrian infantry and artillery station at Semlin, in conjunction with monitors on the Danube, fired on the Servian positions beyond the bridge. The Servians retreated after a short engagement with trifling losses.

A small detachment of pioneers, in co-operation with the customs officers, captured two Servian steamers laden with ammunition and mines. The pioneers and revenue guards, after a sharp encounter, overcame the Servian crews and took possession of the vessels and their dangerous cargoes. The captured ships were towed away by one of the Danube steamers.

A Vienna dispatch to the Exchange Telegraph company says: "After a heavy bombardment by the Danube gunboats, Belgrade was occupied by the Austrian troops."

COST OF EUROPEAN WAR

Conflict Would Mean Five Million Dollars a Day.

New York, July 30.—"War is, as everybody knows, the greatest destroyer of capital," says W. C. Van Antwerp in his book, "The Stock Exchange From Within." "England's little Transvaal war cost \$1,000,000 a day and, by the chancellor of the exchequer's report, resulted in a total expenditure of \$1,085,000,000. The war between Russia and Japan cost upward of \$3,000,000 a day and \$2,000,000,000 all told.

"What a great war would cost England if that country were to cross swords with one of the other powers may be conjectured, what would happen on the stock exchange takes no imagination."

Conservative critics estimate that a war between the triple alliance and the triple entente would cost at least \$5,000,000 a day and might run on for a year or more. Such costs cannot be imagined, and this is the strongest argument for peace.

Try to Rush Cordon.

Paris, July 30.—Notwithstanding the order of the government prohibiting an anti-war meeting called by the revolutionary labor organization, thousands of workmen assembled and tried to rush the cordons of police in order to enter the meeting place. Pierce scrimmages ensued, and 250 of the rioters were arrested.

There has been no changes in the gravity of the situation. At the Elysee palace President Poincaré was engaged until a late hour in conference with Premier Viviani and the cabinet ministers. The government was continuing to use every means to reach a basis for the conciliation of the hostile countries.

Serbs and Austrians Fight.

Los Angeles, July 30.—Rioting broke out here in the portion of the city where Servians and Austrians live. There was some shooting, but no one was found to have been injured by a bullet. Police reserves suppressed the disturbance. Several Austrians were arrested.

Warburg Will Confer With Senators.
Washington, July 30.—President Wilson received a telegram from Paul M. Warburg of New York, saying he had practically decided to come to Washington to confer with the senate banking committee on his nomination as a member of the federal reserve board.

Heavy Rain Great Help to Corn.
Sioux City, Ia., July 30.—A heavy rain which fell in this section will be of great benefit to the corn crop, which was suffering as a result of the long dry spell.

NEXT EXCURSION TO VALENTINE VALLEY, TEXAS, TUESDAY, AUGUST 4.

In a letter from Mr. Gingrich July 16, he states that crops are fine, that on July the fourth they had three inches of rain and a good rain on the 15th. Everything looking fine. Corn is laid by and that he has planted nearly every thing you could think of and its doing fine and his suggestion to us is tell my friends up there that they should come down and look at the country, that its fine. That its a good stock country and no one can lose, but bound to make money. That its a fine stock country and anything you plant takes hold. **DON'T FORGET THE DATE, AUG. 4.**
